

E-Education Portal

E-Education Portal is basically a web application platform which I have made just for my practice purposes and it's under process. E-Education portal is basically for the students for their studying/learning and who want to do some technical courses for making their future bright.

In this E-Education Portal there is two features: -

- **Self-Paced:** - Self-Paced Learning is for those students who want to study with their own and the learner is able to control the amount of material they consume as well as the duration of time they need to learn the new information properly.
In Self-Paced Learning we should provide Video-Tutorials and pdf documents which should be available in the enrolled students account.

- **Instructor Led:** - Instructor Led Learning is for those students who want proper guidance regarding to their learning for better future growth. Instructor Led Learning can have one or more instructors and they teach skills or material to another person or group through lectures, presentations, demonstrations, and discussions.
In Instructors Led Learning we provide step to step guidance, online classes on weekends or on holidays or early morning or late night according to the all students comfortable label.

Now come to the E-Education Portal web application from the starting.

In header there is:

- **Sign in:** - This is only for those students who are already registered and they can sign in to their account and once sign in to their account students can sign out from their only.
- **Register:** - Register page is for those students who want to register for the enrollment. After register it direct to home page.
- **Contact Us:** - Contact-Us page is for those students who want to contact us for any queries.

And menu bar there is:

- **Home Page/Dashboard:** - Home page is the main landing or dashboard page.
- **About Us:** - About us page describes about the E-Education portal.
- **Courses:** - Courses page describes the all courses which is available in portal.
- **Blog:** - Blog page describes the blog content of the portal or courses.
- **Search Bar:** - Search Bar page is for searching the courses available in portal.
